Summary of Emails

Client: Dan

Correspondence summary · September 2024 – June 2026

Date / period	Topic	Summary	Outcome / status
Sep 2024	Transfer of business name registration: DAN PODIATRY	Dan forwarded an ASIC notice regarding transfer of the Dan Podiatry business name and asked whether further action was required.	Administrative transfer matter raised for action.
Jan – Jun 2026	Dan Clinic / Commercial Property Purchase	Dan and Danny explored purchasing the Dan clinic property. Discussions covered borrowing capacity, finance approval, lender requirements, entity structures, and acquisition strategy. Danny initiated enquiries and Dean participated in decisions and confirmations.	Progressed to finance applications and property ownership structuring.
Apr 2026	Property Opportunities	Dan and Danny discussed potential property opportunities and whether to proceed, with advice that finance capacity should not be an issue.	Continued evaluating commercial property acquisitions.
May – Jun 2026	New Investment Structure Setup	Dan and Danny worked with advisers to establish new trusts and a property company (including proposed family trusts and a property investment company) to acquire commercial property and improve asset protection and tax outcomes.	New trust and company structures established and documents issued for signing.
May 2026	Finance & Banking Documentation	Ongoing collaboration between Dan and Danny to provide financial statements, tax returns, trust documents and lender information required for finance approval.	Documentation progressively supplied to broker and lender.
Mar 2026	Emblation Rental Strategy	Dan raised concerns about future limits on equipment rentals. Matthew suggested a strategy discussion with Dan and Danny to prepare for future changes and possible alternative income opportunities.	Strategy meeting arranged.
Mar 2026	Australian Clinic / Dan Health Operations	Dan discussed Xero access issues, GoCardless setup, GST treatment, and invoicing between Australian Clinic and Dan Health. Danny was included in the correspondence.	Accounting setup and GST treatment clarified.
Nov 2025	Colac Property Development Opportunity	Danny shared building costings and development plans for a Colac property with Dan and advisers. Discussions focused on feasibility, construction costs, and strategic value.	Further discussions and analysis recommended.
Dec 2025	Property Search Updates	Danny advised the property search was progressing slowly; discussion centred on future borrowing capacity and acquisition opportunities.	Search continued.

Holdings are shown at the fund's holding level and include the limited-recourse borrowing (NAB loan) as a negative bank balance. The market value of investment assets differs from accounting net assets (\$949,773.17) due to accrued items and other liabilities carried in the financial position. Property and Praemium holdings drive the unrealised gain; bank and non-investment assets are carried at cost.

Policy risk register — risk rating & review summary per policy

Client	Policy	Type	Insurer	Owner	Sum insured	Annual premium (\$)	Watch-list	Risk score	Risk rating	Review summary & rationale
Mandy	P1	Income Protection	Zurich	Individual	IP: \$100,368 pa	\$1,104.92	No	25	Low–moderate	Income protection — review more frequently: confirm waiting/benefit period still match sick-leave and cash reserves and that income can be substantiated at claim. Zurich not on the service-risk watchlist. Client at age 40 review band. Priority: next scheduled annual review.
Mandy	P2	Life & TPD	Zurich	Super fund	Life \$2,781,833 / TPD \$2,781,833	\$1,802.20	No	30	Low–moderate	Held inside super — confirm beneficiary nomination, estate/tax-effectiveness and that the TPD definition and super release conditions align. Recalculate life/TPD need vs debt, dependants and estate liquidity. Zurich not watchlisted. Priority: next annual review.
Mandy	P3	TPD & Trauma	Zurich	Individual	TPD \$2,781,834 / Trauma \$417,276	\$1,477.20	No	35	Low–moderate	TPD is also held individually (~\$2.78m) alongside the super TPD — confirm this is intentional split / flexible-linking rather than duplication. Review trauma definitions and partial-payment / buy-back features vs current market. Zurich not watchlisted.
Mandy	P4	Life & TPD	NEOS	Third party (4 owners)	Life \$1,579,017 / TPD \$1,579,017	\$1,216.91	No	42	Review ≤6 months	Business buy/sell cross-ownership (cover on 4 principals: M Le Maitre, C White, J Purser, N Bethune; \$1,216.91 x4 policies). Confirm sum insured matches current business valuation, ownership remains consistent with the shareholder/buy-sell agreement, and entity/tax treatment is correct. NEOS not watchlisted. Priority: review within 6 months (business-succession dependency).
Dan	P1	Life	TAL	Super fund	Life \$3,341,833	\$1,647.80	Yes	44	Review ≤6 months	Provider-service trigger: TAL is on the framework watchlist (2021 Federal Court duty-of-utmost-good-faith finding and subsequent ASIC claims remediation) — confirm current claims service; do not assume replacement. Held in super — check nomination, estate and tax. Recalculate life need. Priority: review within 6 months.

Client	Policy	Type	Insurer	Owner	Sum insured	Annual premium (\$)	Watch-list	Risk score	Risk rating	Review summary & rationale
Dan	P2	TPD & Income Protection	TAL	Individual	TPD \$3,341,833 / IP \$62,436 pa	\$14,033.36	Yes	64	High priority	Highest-risk policy. TAL income-protection provider trigger — framework specifically notes TAL IP procedural-fairness / payment-cessation concerns and client reliance on timely income. High premium (\$14,033 pa) — affordability review. Confirm benefit/waiting period, offsets and income substantiation. Client carries an underwriting exclusion/loading — factor into any replacement assessment. Priority: high — review within 6 months.
Dan	P3	Trauma	Zurich	Individual	Trauma \$333,780	\$2,047.20	No	30	Low–moderate	Trauma — compare heart-attack / cancer / stroke and partial-payment definitions vs current market; preserve any valuable legacy wording. Zurich not watchlisted. Priority: next annual review.
Dan	P4	Income Protection	Zurich	Individual	IP: \$90,168 pa	\$7,632.24	No	48	Review ≤6 months	Second income-protection layer alongside the TAL IP (P2) — review combined cover for over-insurance/duplication (total IP benefit ≈ \$152.6k pa; combined IP premium ≈ \$21.7k pa) and confirm income can be substantiated at claim. Zurich not watchlisted. Priority: review within 6 months.

Insurer watchlist — relevant providers

Provider	On watchlist	Basis for enhanced review	Suggested review response
TAL / Asteron	Yes	2021 Federal Court found TAL breached its duty of utmost good faith on an income-protection claim; ASIC claims-calc/payment remediation; AFCA criticism of IP payment cessation without warning; acquired legacy books add admin complexity.	Do not assume replacement. For IP, check procedural-fairness risk, benefit period, offsets, claim-evidence requirements and reliance on timely income. Review policy age, book, premium increases and claim vulnerability.
Zurich	No	Not listed on the framework watchlist. Standard review only.	Apply standard review triggers (needs, definitions, ownership, affordability). No provider-service points added.
NEOS	No	Not listed on the framework watchlist. NEOS cover here is a business buy/sell arrangement.	Standard review; focus on buy/sell ownership, business valuation and shareholder-agreement consistency rather than provider-service risk.

Framework scoring matrix

Score	Rating	Recommended action
0–20	Monitor	No immediate review; confirm at next annual client meeting.
21–40	Low–moderate	Low-to-moderate priority; review at next scheduled annual review.
41–60	Review ≤6 months	Review within six months, or sooner if affordability / claims risk is present.
61–80	High priority	High-priority review; consider comprehensive insurance analysis.
81–100	Immediate	Immediate comprehensive review; document risk, affordability and replacement considerations.

Notes & caveats

• Risk scores are indicative and framework-based. Policy commencement dates and premium history were not in the dataset, so policy-age (\$2–3) and premium-movement triggers could not be scored — scores are lower bounds pending that data.

- *The framework is a triage tool, not replacement advice. A provider appearing on the watchlist does not make a policy unsuitable; provider-service concerns are one input only and must be verified against current APRA/ASIC, AFCA and Life Code sources before use in client advice.*
- *Watchlist commentary reflects public signals as at July 2026 and should be refreshed before client use. TAL is the only insurer held here that appears on the framework watchlist; Zurich and NEOS are not listed.*
- *Source data note: the P4 columns in the supplied file were column-shifted (insurer/premium/owner rotated); these have been decoded to their correct fields in this summary.*
